Dear Mr. Hansen:

RE: Small Mine Commencement Notification; Utah State Building Stone/Limestone
Lease ML 44821; **Duchesne County, Utah; S/013/001**

I have reviewed your notice and find it complies with our notification requirements. You may proceed with operations as outlined in your plan with the following stipulations:

1. All surface disturbance resulting from your operations on the leased lands will be fully reclaimed to the satisfaction of the Division of State Lands and Forestry and in compliance with the State of Utah Mined Land Reclamation Act.
2. Compliance with the State of Utah Antiquities Act forbidding disturbance of archeological, historical, or paleontological remains; and immediate suspension of operations and notification of this agency, as well as, the Division of State History in the event such remains are encountered. Our office has received a release from the State Historic Preservation Officer concerning the cultural survey you have submitted.
3. Granting this approval does not alleviate the necessity to comply with the requirements of the Division of Oil, Gas, and Mining regarding this development. You must contact them and comply with their requirements before beginning any work. Their address is: Division of Oil, Gas, and Mining, 355 West North Temple, 3 Triad Center, Suite 350, Salt Lake City, UT 84180-1203.
4. The Division rules require a surety bond be posted to insure reclamation as well as compliance with all other lease terms, in the case of this operation the disturbance is small enough that a bond will not be required at this time. Your operation will be monitored and it may be determined at a later date that the bond may need to be posted.

Sincerely,

JERRY W. MANSFIELD
MINERAL RESOURCES SPECIALIST
